As a university, we cultivate knowledge.

As a University of Ceará, we serve the community.

Thus, we accomplish the universal through the regional.

INTRODUCTION

The Federal University of Ceará here presents the achievements of one more productive year in graphics and tables. The Statistical Yearbook 2015, which is based on the year of 2014, portrays the ascending curve that characterizes the current phase of our institution, marked by its continuous and accelerated growth. These are results that we proudly disclose to the internal and external communities in transparent report of what we accomplished in 12 months in order to meet our commitments, reach our goals, and overcome them if possible.

The Yearbook was elaborated by the Provost Office of Planning. It portrays the most diverse and enlightening outputs of the university by means of indicators and data that disclose the operation of each academic and administrative space, after presenting a historical outline and aligning the objectives, view, organizational structure and other relevant data.

Different chapters are dedicated to Social Inclusion, Selection Process, Undergraduate Studies, Student Assistance Program, Distance Education, International Affairs, Graduate Studies, Scientific Production and Research, Extension, Scholarships Programs, Staff Management, Libraries System, Publishing House, Hospitals, Foreign Culture Houses, Cultural Equipment, Ombudsmanship, University Press, Coordination of Social Communication and Institutional Marketing, Foundations, Budgeting, Farms and Ranches. A new page that aggregates this publishing is the one dedicated to Environmental Management, which brings the flowchart of the process regarding the management of recyclable residues at UFC, among other information.

Due to its dimension and range and to the indescribable richness of information that it makes available in the most practical way, the Statistical Yearbook 2015 imposes itself as an essential document to those who wish to know in detail the great institution that the Federal University of Ceará became. Thus, we will make efforts for this document to have the widest distribution, reaching all spaces of the several campuses and overcoming our limits to reach the representatives instances of society. We want the people from Ceará to understand the real dimension of this inalienable heritage that Martins Filho and his fellow members instituted 60 years ago and that this university has done its best since then to produce and disseminate knowledge in an environment of creative freedom and democracy. UFC, a great institution, respected by its degree of excellence, has evolved to become an inclusive institution by excellence, where young students from all social classes have the opportunity to grow as professionals and citizens.

Henry de Holanda Campos
Rector

Custódio Luís Silva de Almeida
Vice-Rector

1. MISSION AND COMMITMENT

The mission of Universidade Federal do Ceará is to qualify our students for professional excellence and to promote investigation and research, as well as to preserve and disseminate our cultural and artistic heritage. Since its establishment in 1955, UFC has upheld its commitment to serve our region, without forgetting the universal character of its intellectual output.

2. A LEGACY

UFC was created on December 16th, 1954 and established on June 25th of the following year. It has been leading scientific and extension productiveness in the state of Ceará. Our institution has 1,955 professors, 1,424 of whom hold a doctoral degree and 430 a master's degree. There are also 3,439 administrative staff members, University Hospital staff included.

The university started with the colleges of Agronomy, Law, Medicine, Pharmacy and Dentistry along Professor Antônio Martins Filho's mandate.

Today the institution comprises seven campuses, three of them in Fortaleza, and four in the countryside. It is worth mentioning that our university is present in every municipality by means of the College of Distance Education.

Having a budget of R\$ 1,119.66 billion in 2014 — an amount that exceeds the main municipalities revenue in the state of Ceará —, UFC is recognized as one of the best academic institutions in Brazil. Thus, it represents an important scientific and cultural legacy for the local citizens, contributing to the socio-economic development of our country.

3. ACCESSIBILITY

The Accessibility Committee at UFC is an administrative unit established by CONSUNI (Academic Council) on August 30, 2010. The committee was designed to devise, execute and manage actions to achieve greater accessibility, to support both academic and administrative units to effectuate accessibility at UFC, and to foster an inclusive culture at the university.

Programs: Attitudinal Accessibility, Pedagogic Accessibility, Architectural Accessibility, Technological Accessibility

4. UNDERGRADUATE STUDIES

Transforming thousands of students into qualified professionals is not the sole objective of the Undergraduate studies at UFC. It is a bigger challenge: to contribute to the generation and exchange of knowledge, helping to meet the demands of contemporary society.

Bearing this in mind, the university provides the community with 124 undergraduate degrees with over twenty-six thousand students enrolled. Over seventy thousand students graduated in our university and today they share their expertise in the state of Ceará as well as in neighboring states.

It began offering undergraduate distance education programs in 2007 starting with 998 vacancies.

The number increased to 1,488, exceeding the initial figure in 722 vacancies.

Undergraduate degrees are available in 17 Academic Units.

4.1 ACADEMIC UNITS

4.1.1 College of Sciences – CC

The College of Sciences was created on March 2, 1973, and it comprises the colleges of Mathematics, Physics, Chemistry, Geosciences and Biology. It comprehends the degrees in Biotechnology, Biological Sciences, Computer Science, Statistics, Physics, Geography, Mathematics, Chemistry, Industrial Chemistry, Ecology and Natural Resources.

4.1.2 College of Agricultural Sciences – CCA

The College of Agricultural Sciences was created from the already established College of Agronomy that dates from March 30, 1918.

It comprises the degrees in Agronomy, Domestic Economy, Food Engineering, Aquaculture Engineering and Zootecnics.

4.1.3 College of Humanities – CH

The College of Humanities dates from April 30, 1969, and was established by means of a university reform out of the former College of Philosophy, Sciences and Languages and Literature. The latter, dating from 1961, was established by Decree no. 3866, from January 25, 1961 (Official Gazette on January, 26, 1961).

It includes the degrees in Library Science, Social Sciences, History, Portuguese and Literatures in Portuguese, English and Literatures in English, French and Literatures in French, Italian and Italian Literature, Spanish and Literatures in Spanish, German and Literatures in German, Latin and Latin Literature, Greek and Greek Literature, LIBRAS (Brazilian Sign Language) and Psychology.

4.1.4 College of Technology – CT

The College of Technology at UFC has been disseminating scientific and technological knowledge in engineering and architecture since 1973.

It offers the degrees in Architecture and Urbanism, Design, Environmental and Sanitary Engineering, Civil Engineering, Electrical Engineering, Renewable Energy Engineering, Petroleum Engineering, Mechanical Production Engineering, Chemical Engineering, Teleinformatics Engineering and Metallurgical Engineering.

4.1.5 College of Law – FD

Created on February 21, 1903, by State Law no. 717, The Free Faculty of Law was the first higher education institution in Ceará.

Our former Rector, Professor Jesualdo Farias, declared these 110 years of Law at UFC a milestone for both the University and for our state. Part of our institution history and consecutive chapters of our state chronicle were written by the notable characters that attended the program generation after generation, studying and exercising the Science of Law.

The College of Law offers the Bachelor's Degree in Law.

4.1.6 College of Economics, Management, Actuarial Science and Accounting – FEAAC

FEAAC was founded by Professor Djacir Menezes on November, 1938, in collaboration with Professors Lincoln Mourão Mattos, Domingos Brasileiro, José Valdo Ribeiro Ramos and Carlos Oliveira Ramos. The College began as a private institution and was federalized in 1963.

FEACC offers the degrees in Economics, Management, Actuarial Science, Accounting, Executive

Secretariat and Finance.

4.1.7 College of Education – FACED

FACED was designed to be the center of cultural propagation of our university by means of the use of Anísio Teixeira's 1930s model implemented in the Faculty of Philosophy, Sciences and Languages at USP.

FACED offers the undergraduate degree in Education.

4.1.8 College of Pharmacy, Dentistry and Nursing – FFOE

The College of Pharmacy, Dentistry and Nursing was created in 1997 with the purpose of promoting the qualification of pharmacists, dentists and nurses, enabling them to practice at several levels of complexity in each of these professional fields.

FFOE offers the degrees in Nursing, Pharmacy and Dentistry.

4.1.9 College of Medicine

The College of Medicine has the mission of qualifying doctors by means of appropriate methodology and suitable environment in accordance with the various levels of health care and technical, scientific and humanistic knowledge, enabling students to identify, recognize and experience health problems in the individual and in the community, and to take part in the solutions, acting with creativity, critical and scientific thinking and based on ethic principles.

The College of Medicine offers the degrees in Physiotherapy and Medicine.

4.1.10 College of Marine Sciences – LABOMAR

Labomar was created almost 53 years ago as a research unit at the institution. It was converted into a college in 2008. Now it comprises the undergraduate degrees in Oceanography, Environmental Sciences and the graduate degree in Tropical Marine Sciences.

Moreover, its twelve laboratories serve various departments at UFC, such as Biology, Geology, Aquaculture Engineering and Biochemistry.

A national reference in marine research, Labomar deals with ecosystem preservation, coastal environmental impact, and employment and income generation in the sector of mariculture.

It offers the degrees in Environmental Sciences and Oceanography.

4.1.11 College of Culture and Arts – ICA

A creativity hub, ICA is responsible for equipment and programs related to the art and cultural scenario since when it was created, in 2008.

It comprises the degrees in Cinema and Audiovisual, Gastronomy, Dance, Fashion Design, Philosophy, Journalism, Land Journalism, Music, Marketing and Advertising and Theater.

4.1.12 College of Physical Education and Sports – IEFES

IEFES was created on December 17, 2010, as a research and learning institution dedicated to embrace and live with diversity and to offer new perspectives of opportunities and flexibility towards different learning practices, theoretical paradigms and numerous thematic possibilities, so that we keep the totalitarian policy of exclusion away.

The College of Physical Education and Sports offers the Bachelor's Degree in Physical Education and the Teaching Degree in Physical Education.

4.1.13 UFC College of Distance Education

UFC College of Distance Education has been breaking paradigms of traditional education and overcoming prejudice. It has also become a national model of development and provision of distance education programs.

Over five thousand students all over the state are enrolled in its nine undergraduate degrees and make use of the virtual environment to learn and obtain a university degree.

It offers the degrees in Public Administration and Management, Teaching Degree in Physics, Teaching Degree in Spanish, Teaching Degree in English, Teaching Degree in Portuguese, Teaching Degree in Mathematics, Chemistry, Education, Digital Media and Systems.

4.1.14 Crateús Campus

The new UFC campus in the city of Crateús was approved in 2013. It is located in the countryside of the State.

This campus offers the degrees in Information Systems and Computer Science, Civil Engineering, Environmental and Energy Engineering and Metallurgical Engineering.

4.1.15 Quixadá Campus

Located in the central hinterland of Ceará, the municipality of Quixadá had its campus inaugurated in 2007, and it offers the degrees in Computer Science, Software Engineering, Computer Networks (technologist) and Computer Information Systems.

4.1.16 Russas Campus

The new UFC campus in the city of Russas was approved in 2013. It is situated in Baixo Jaguaribe, generating new opportunities for students in this region.

This Campus offers the degrees in Software Engineering, Production Engineering, Computer Science, Civil Engineering and Mechanical Production Engineering.

4.1.17 Sobral Campus

The establishment of the undergraduate degree in Medicine in Sobral in 2001 was the starting point to the process of bringing higher education to the northern region of the state. The campus is about to have its own headquarters, in the former building of the Ernesto Deocleciano Textile Factory, which is part of the historic heritage of the municipality.

This campus offers the degrees in Economics, Computer Science, Music, Electrical Engineering, Medicine, Dentistry, Psychology and Finance.

5. GRADUATE STUDIES

There are 6,402 students enrolled in graduate programs at UFC with the objective to enrich the experience acquired during the first stage of their academic journey.

UFC holds:

- 39 lato sensu graduate degrees,
- 55 master's degrees;
- 12 professional master's degrees;
- 43 doctoral degrees

6. Research

UFC has led scientific production in the state of Ceará due to policies of investment in research. We have 386 research groups, 251 scholars with Productivity Scholarships and 1,177 undergraduate students with Introduction to Scientific Research scholarships.

Among the activities that discuss and propagate the results of these researches, the University Conference (Encontros Universitários) stands out as a democratic forum that comprehends distinct meetings every year presenting our academic production.

6.1 Scientific and Research figures

SPECIFICATION	TOTAL
Research Activities	
Research Groups	386
Lines of Research	1,257
Scientific Production	
Papers published	2,200
Books and chapters published	655
Papers presented in National Congresses	1,564
Papers presented in International Congresses	852

7. EXTENSION

Besides qualifying our students socially and academically, the Extension developed at UFC benefits 2 million thousand people in Ceará by means of programs, projects, courses, conferences and service provision.

Including both rural and urban communities, UFC offers 803 Extension activities in various areas such as Education, Communication, Culture, Human Rights and Law, Environment, Health, Technology etc.

Moreover, the Internship Program benefits 6,251 students from different areas.

9. LIBRARIES SYSTEM

The archives of the University Libraries comprise almost 174,000 titles and over 475,000 items mostly available for lending. They hold collections of books, theses, journals, videos and slides.

Besides modern publications, the libraries hold rare and valuable works dated to the 17th century. One of the highlights is Brazilian Chorography by Manuel Aires de Casal, the first book published in Brazil which contains the first edition of Pero Vaz de Caminha's letter, the first document describing our country. UFC libraries also hold original books by Rodolfo Teófilo, Clóvis Beviláqua, Farias Brito and other local intellectuals.

There are 17 university libraries, 13 of which are in Fortaleza, one in Juazeiro do Norte, one in Barbalha and two in Sobral. Each year the University libraries lend about 560,000 titles.

10. STUDENT ASSISTANCE PROGRAM

Ensuring the necessary conditions for good performance of our undergraduate students is a top priority at UFC. Thus, the university offers 1,200 academic initiation scholarships and 100 sports incentive scholarships to students in conditions of social vulnerability.

Besides financial support, UFC provides the students with about 6,290 meals delivered daily at the University Restaurants (RU) and with 870 vacancies at the 11 University Residence units.

The e-inclusion program, the Psychopedagogic Support and the Medical and Dental Division are also services offered to students.

11. CULTURAL CENTERS

11.1 Casa José de Alencar (Jose de Alencar's House)

Casa José de Alencar is the birthplace of the most famous writer from Ceará and a heritage listed by IPHAN (National Institute of Historic and Artistic Heritage). It preserves and promotes the novelist's work, keeping it available to public visitation.

Casa José de Alencar is located in Alagadiço Novo, a farm where the Floriano Teixeira Pinacotheca, Braga Monteiro Library, Artur Ramos Museum, Luísa Ramos Collection, Iracema Room and Martins Filho Training Center are also located, as well as the ruins of the first steam sugar cane mill of the state.

11.2 Seara da Ciência (Science Field)

Seara da Ciência has experiments, games and curiosities, where learning and having fun go hand in hand. Knowledge in the fields of Physics, Mathematics, Chemistry and Biology are shared in a practical and pleasant way by means of equipment created by UFC students and professors.

11.3 Casas de Cultura Estrangeira (Foreign Culture Houses)

Located at the Benfica campus, the Foreign Culture Houses offer courses of German, French, Italian, English and Portuguese – all of them available to the community.

The 3,600 students enrolled have the opportunity not only to learn the language itself, but also to learn aspects of the culture from the countries where the language studied is spoken by means of entertaining activities including literature, music and other forms of artistic expression.

11.4 Casa Amarela Eusélio Oliveira (Eusélio Oliveira Yellow House)

Casa Amarela is located at the Benfica Campus. It offers courses of cinema, photography and animation, enabling the community's access to its video collection made up of 3,500 titles. It also promotes film sessions at the Cine Benjamin Abraão Theater with capacity for 146 people.

One of its main contributions to Brazilian culture is Cine Ceará, a film festival comprising about 600 professional and amateur films from various countries annually.

11.5 Museu de Arte da UFC (UFC Art Museum) – MAUC

In addition to an auditorium and five exhibition rooms, MAUC holds the largest collection of Brazilian xylographed cordel literature, besides works by Raimundo Cela, Chico da Silva, Aldemir Martins, Jean-Pierre Chabloz, Descartes Gadelha, Antônio Bandeira, among others.

MAUC was bestowed a grant for museum modernization by IPHAN in 2008, which resulted in a new exhibition room exclusive to popular culture works.

It is located at the Benfica campus and it is open to visitation. Its main purpose is to arouse society's interest in arts and to promote artistic output.

11.6 Rádio Universitária FM (University Radio Station)

Rádio Universitária is recognized as one of the most popular stations among the best-educated listeners and it stands out by its news coverage and musical programming dedicated to classical and popular styles, besides commercial programs.

The station collection with 3,600 CDs and 13,033 LPs has become a reference for researchers with Brazilian and foreign rarities. There are also 4,800 reel tapes with programs and interviews with Brazilian personalities.

11.7 Teatro Paschoal Carlos Magno (Paschoal Carlos Magno Theater)

Teatro Universitário Paschoal Carlos Magno offers courses of Theater, Dance and Cinema & Audiovisual. Besides promoting studies and research in the area, the theater has been used by artistic groups from other areas at UFC as an academic discussion space and as a symposium spot.

11.8 Secretaria de Cultura Artística (Secretariat of Artistic Culture) – SECULT – UFC

SECULT was created by CONSUNI (Academic Council) on March 1, 2012, and officially established on April 16 of the same year. It is an outcome of a commission made of professors who worked to “design a project to establish policies, directives, goals and management of artistic and cultural activities at UFC” (Decree 4099, October 31, 2011) by the former Rector’s request, Professor Jesualdo Pereira Farias.

SECULT’S GOAL

Its main goal is to articulate initiatives related to arts at UFC, promoting and supporting actions and projects.

SECULT’S MISSION

To consolidate artistic culture as an inalienable dimension of the academic life searching for strategies to increase aesthetic production in the various expressions of arts, thus fostering critical thinking.

12 UNIVERSITY HOSPITALS

12.1 University Hospital Walter Cantídio (HUWC)

Both urban and rural low-income families benefit the most from HUWC, which provides 462 hospital beds, over 277,000 medical consultations and hospitalizes about 16 thousand patients per year. It is located at the Porangabuçu Campus, also offering clinical analyses, ultrasound scanning, computer tomography, examinations both by graphic methods and endoscopy. All of them are free of charge.

Moreover, about 1,000 surgical procedures, 4,000 chemotherapy sessions and 11,000 hemodialysis sessions are performed each year. HUWC performs corneal, bone marrow, kidney, liver and pancreas transplants, and from May 1, 2002, HUWC performed 1000 liver transplants and has become the main public center of transplants in Brazil and in Latin America.

12.2 Maternity – School Assis Chateaubriand (MEAC)

MEAC holds 219 hospital beds, performs over 54,000 consultations and about 4,000 deliveries every year, in addition to thousands of emergency services and hospital stays. Over 1,300 mothers donate breast milk for the Human Milk Bank enabling 953 babies whose mothers cannot breastfeed to thrive.

It inaugurated the Civil Register Sector in November of 2008, which allows mothers to leave the maternity already holding their babies' birth certificate. It is a free service.

12.3 University Pharmacy

The University Pharmacy, besides offering low-cost drugs, also holds the Prevention Group to Misuse of Medicines and the Clinical and Toxicology Analysis Laboratory.

12.4 University Dental Service

The University Dental Service offers 24-hour emergency services, oral and maxillofacial surgery, radiology and dental prosthesis.

13. OTHER SERVICES

13.1 Publisher and University Press

UFC Editions publish the university's intellectual outcome with an average of 52 books published annually, all of them relevant to the culture of Ceará.

UFC Press produces about 18,500 pages of books, journals and certificates annually.

13.2 Examinations Coordinating Office – CCV

CCV is located at the Pici campus. It manages and runs a number of exams, being the entrance exam to the Foreign Culture Houses of special significance.

13.3 Internal Auditing and Ombudsmanship

Both Internal Auditing and Ombudsmanship are located at the Benfica campus and they reinforce the transparency policy and participative management at UFC. Whereas the Ombudsmanship hears and addresses critics and suggestions related to the university functioning with views of improving its services, the Ombudsmanship conducts systematic analyses of university activities, ensuring their development and efficiency.

14. INTERNATIONAL AFFAIRS OFFICE (CAI)

CAI is run by a Coordinator assisted by three professors in the areas of Academic Mobility, International Exchange Programs and Foreign Student Assistance.

CAI is responsible for cooperation agreements with 88 universities in 19 countries – Angola, Argentina, Australia, Belgium, Cape Verde, Canada, Chile, China, Colombia, Germany, Holland, France, Italy, Japan, Mexico, Portugal, Spain, United Kingdom, United States and Uruguay. These agreements involve activities at both undergraduate and graduate levels.

There are three specific programs that are coordinated by CAI: Science without Borders, Exchange Students Program for Undergraduate Studies (PEC-G) and Exchange Students Program for Graduate Studies (PEC-PG).

The coordination of the Science without Borders program is also held by CAI's coordinator, and UFC has sent 1,758 undergraduate and graduate students abroad by means of this federal program up to this moment.

PEC-G/PEC-PG, which was developed by the Brazilian Ministry of Foreign Relations, the Ministry of Education and public and private universities, offers opportunities of high education to citizens from developing countries with which Brazil holds educational and cultural agreements. It started in 1974 with one student from Bolivia, and now UFC has 126 PEC-G/PEC-PG students from 15 countries: Angola, Barbados, Cape Verde, Colombia, Bolivia, Cameroon, Guinea-Bissau, Mozambique, Nigeria, Panama, Peru, Democratic Republic of the Congo, Sao Tome and Principe, East Timor and Togo.

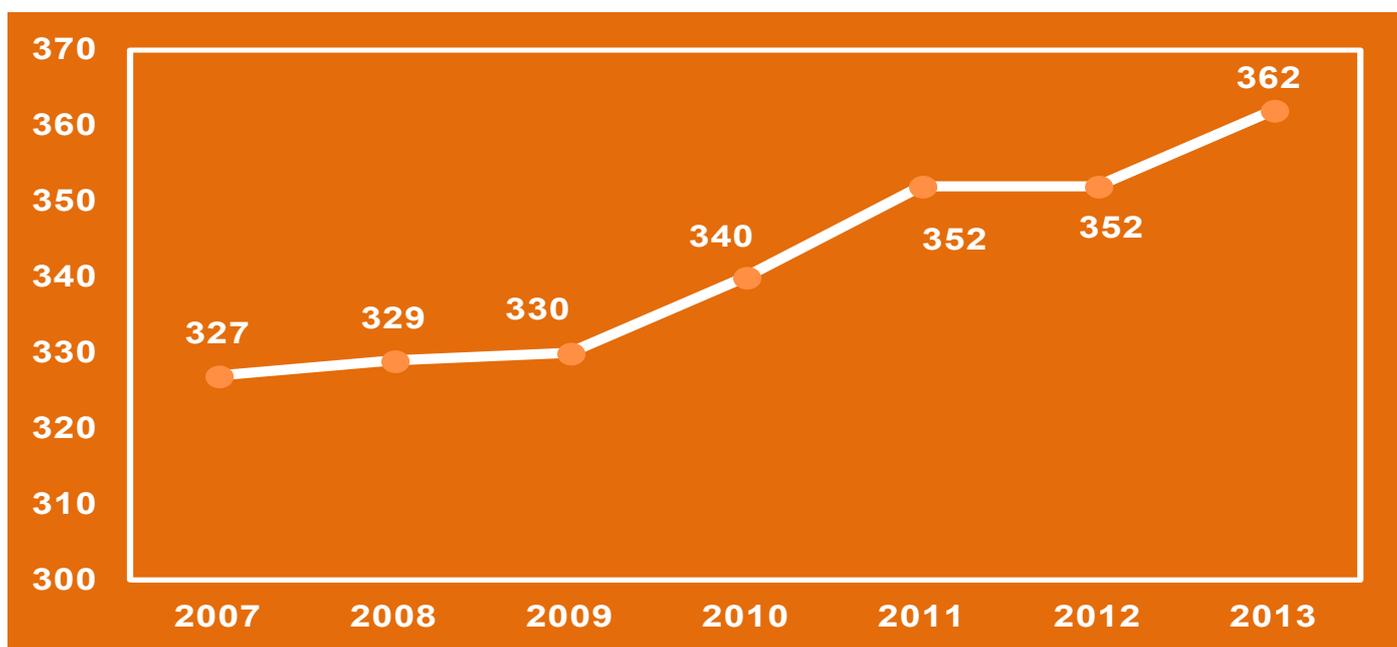

15. UFC FIGURES

15.1 Management Figures adopted by TCU (Brazilian Court of Auditors)

Figures	2014
I.A Cost with HU per student	16.642,00
I.B Cost without HU per student	14.410,35
II. Full time student per professor	16,14
III.A Full time student per staff member with HU	8,65
III.B Full time student per staff member without HU	13,38
IV.A Staff member with HU per professor	1,87
IV.B Staff member without HU per professor	1,21
V. Student participation level (GPE)	0,90
VI. Graduation involvement level (GEPG)	0,19
VII. CAPES's Graduation grade	4,34
VIII. Faculty qualification index (IQCD)	4,34
IX. Undergraduate success index	59,62%
VI. Graduation involvement level (GEPG)	0,19
VII. CAPES's Graduation grade	4,34
VIII. Faculty qualification index (IQCD)	4,34
IX. Undergraduate success index	59,62%

15.2 UFC Figures

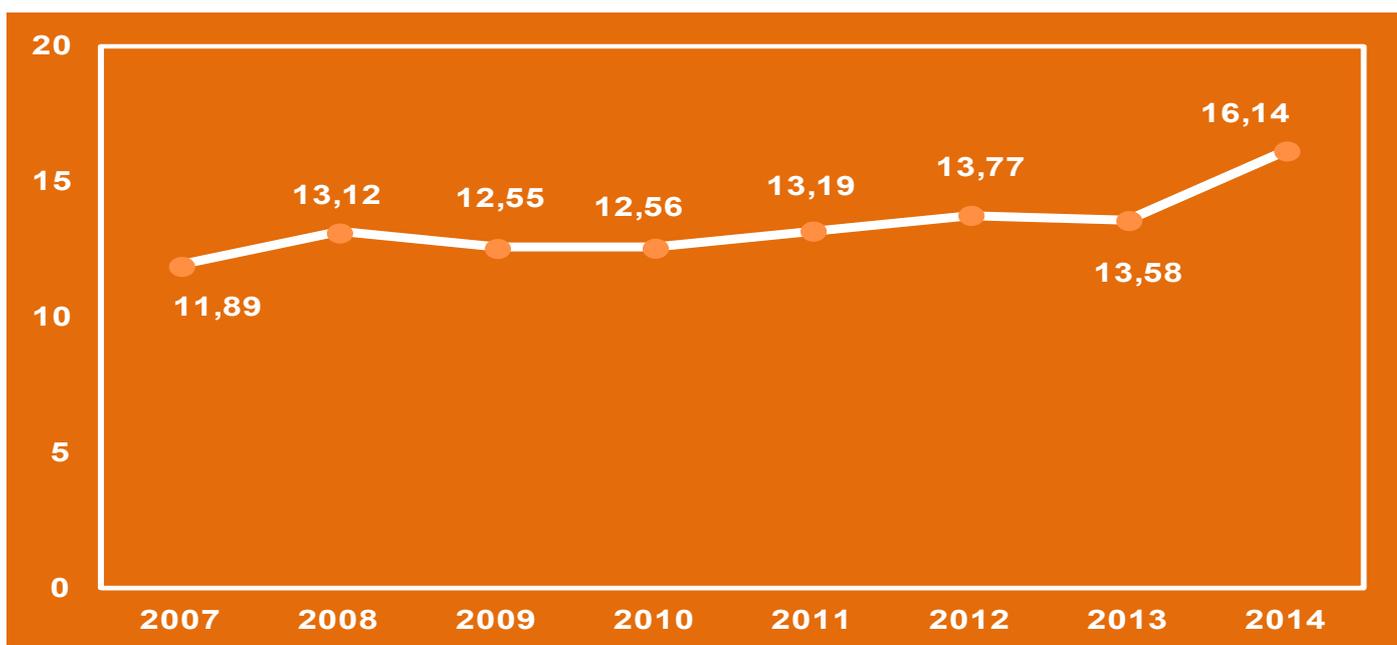

15.2.1 General programs index (IGC): Ongoing values

Source: INEP/MEC

IGC is an index in ongoing values (0 to 500) transformed in conceptual levels (1 to 5). Its value summarizes theoretically the quality of all programs (undergraduate and graduate) of a university considering the quality of input (i), the faculty (ii), qualification processes (iii) and students' qualification.

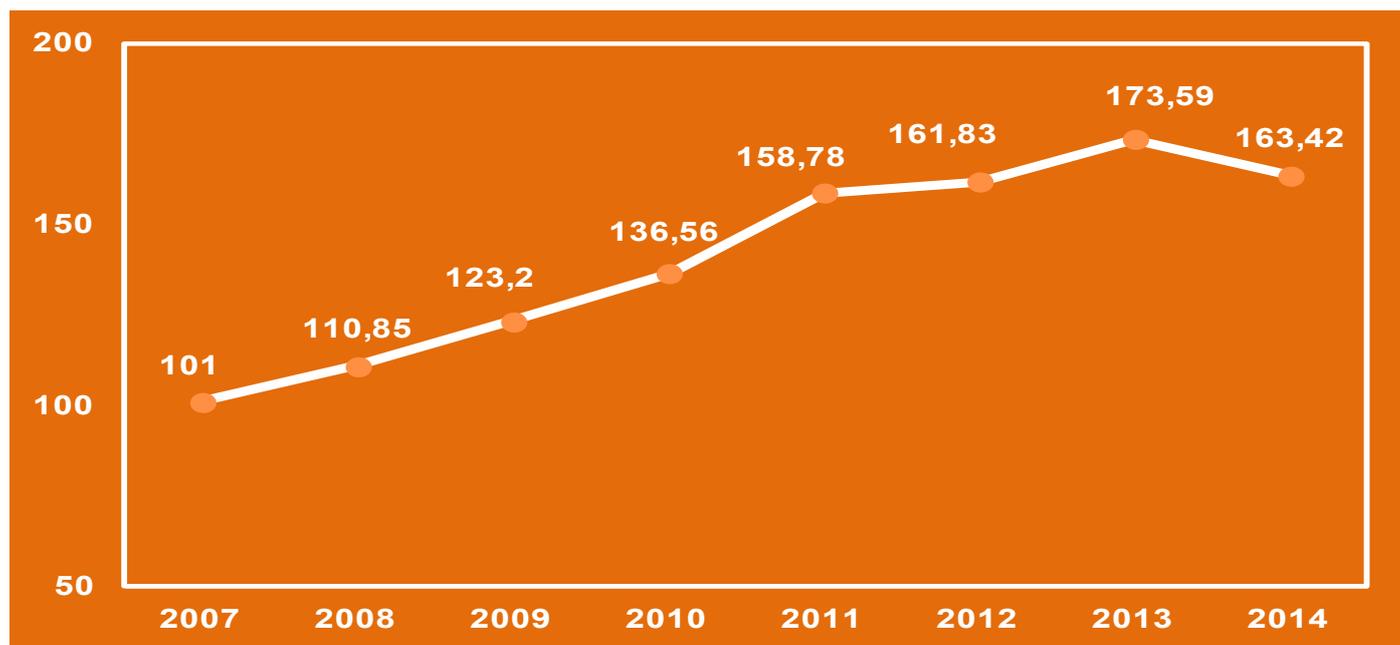

15.2.2 Student/professor rate (RGD)

Source: PRPL, 2014

RGD reveals the proportion between full-time student (on-site) and professor.

15.2.3 Vacancies increase in undergraduate programs (IGV)

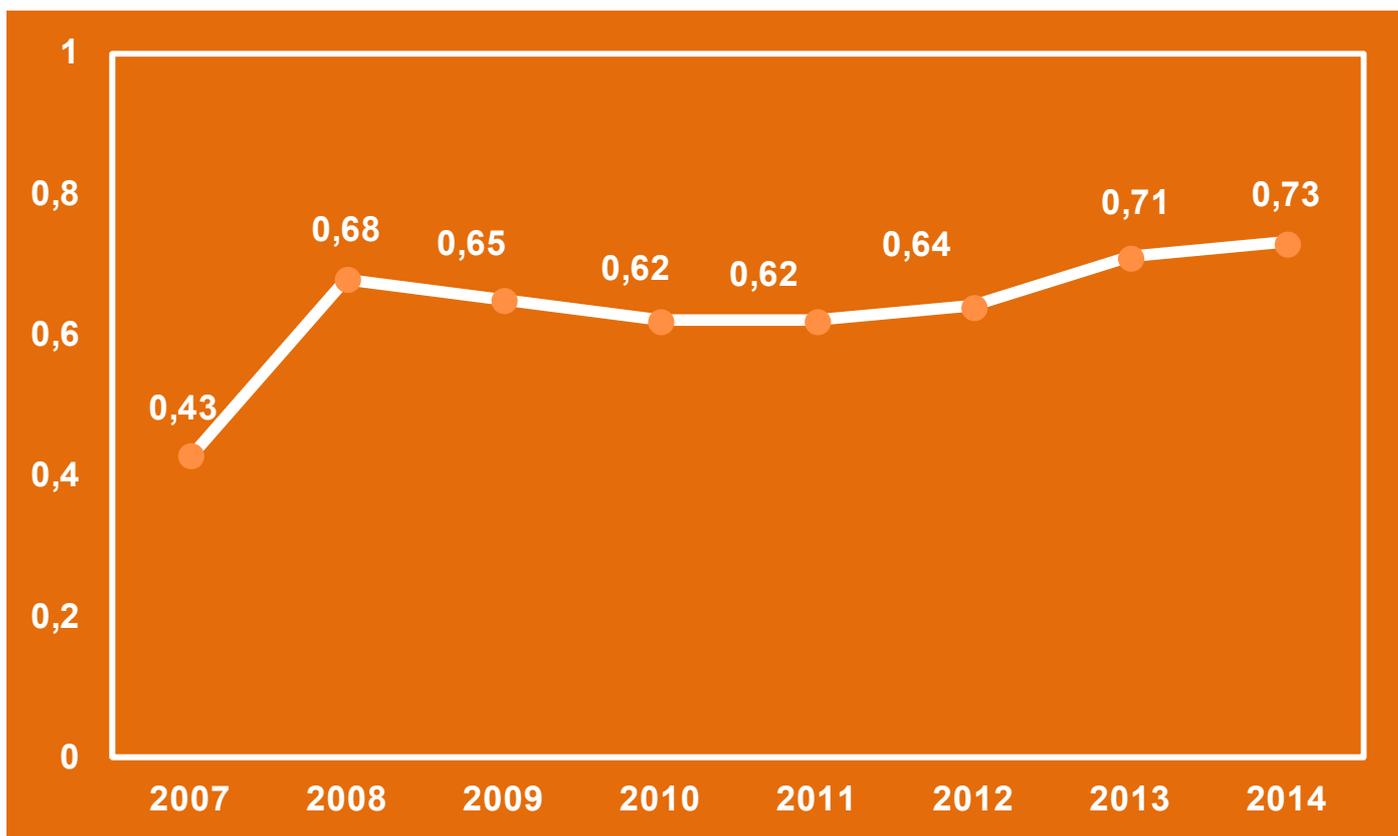

Source: PRPL, 2014

IVG shows the evolution in the number of vacancies offered in undergraduate programs from 2006 on.

15.2.4 Doctors within UFC teaching staff (TDOU)
